TECHNICAL AND DESIGN SKILLS

- **Product & UX:** Product Design, UX/UI Design, End-to-End Product Design, Interaction Design, User Experience Design, User Flows, Wireframing, Prototyping, Information Architecture, Accessibility Design
- **Strategy & Research:** UX Research, User Interviews, Usability Testing, Data-Driven Design, Product Strategy, A/B Testing, Stakeholder Collaboration, Cross-Functional Collaboration
- **Systems & Tools:** Figma, Figma Make, Design Systems, Component Libraries, Accessibility (WCAG 2.1), Agile/Scrum, Jira, B2B SaaS, Identity & Access Management (IAM)

PROFESSIONAL EXPERIENCE

PTC

Remote (based in NYC)

Product Designer, Identity and Access Management (IAM)

Jan 2022 - Present

- Lead end-to-end product design for Operator Center, PTC's enterprise IAM platform enabling identity, access, and user lifecycle management across the company's SaaS ecosystem
- Drive onboarding, authentication, provisioning, and user administration experiences across Admin Center, Start/Landing App, and Cloud Direct, supporting 20,000+ enterprise users
- Reduced support volume by 20% by uncovering friction in high-complexity admin workflows and redesigning core cross-platform task flows
- Improved task completion time by 25% through usability testing, iterative prototyping, and simplifying multi-step enterprise workflows

PTC

Boston, MA

Associate Product Designer, Design Systems

Apr 2021 - Jan 2022

- Led Design System 2.0 across 8+ enterprise SaaS products, establishing scalable UI patterns and improving cross-product consistency across PTC's platform ecosystem
- Defined and designed reusable UI components and interaction patterns to standardize enterprise workflows and reduce UI fragmentation across applications
- Improved accessibility compliance across the system by aligning core components with WCAG 2.1 standards and embedding accessibility into design patterns
- Partnered with engineers and product designers to implement, iterate, and govern component libraries through continuous feedback and system refinement

PTC

Boston, MA

Product Manager

Oct 2020 - Apr 2021

- Led SOC 2 compliance initiative for enterprise IoT platform in collaboration with legal, engineering, and product teams
- Defined security and risk control frameworks to support audit readiness and enterprise compliance requirements
- Improved enterprise trust posture by aligning product processes with security standards

EDUCATION

TUFTS UNIVERSITY

Medford, MA

Bachelor of Science, Computer Science

2020
